Number of Competing Records, 150. Average age of Cows, 2 years, 2 months, 25 days; length of record, 338 days; milk, 12,558.5 lbs.; per cent fat, 3.42; fat, 429.95 lbs.
 As the awards for milk production are in every case duplications of records already listed in the awards for fat production and their listing would be merely a rearrangement, it is thought best to save space by omitting them.
